Kaizen Champion Development Program

A 5-day intensive program for manufacturing leaders

Build internal capability to lead practical, sustainable continuous improvement.

5 days

Applied classroom and workshop format

120 days

Structured implementation coaching

15 pax

Small cohort for hands-on support

PROGRAM TRAINER

Husni Halim

EFESO-Certified Process Kaizen Engineer | HRDC Accredited Trainer ID 11294

INTRODUCTION

Program Brief

This program develops practical Kaizen Champions who can identify waste, lead structured problem solving, and sustain improvements after the training room closes.

Kaizen is continuous improvement embedded in daily operations. For manufacturing teams, it creates a disciplined way to move from firefighting to prevention, from opinion-based fixes to data-driven action, and from isolated projects to a culture of sustained improvement.

Across five intensive days, participants work through the full improvement cycle: understand current-state performance, identify waste, diagnose root causes, design countermeasures, build an A3 report, and prepare a 90-day implementation roadmap.

Who Should Attend

- Manufacturing supervisors and team leaders
- Process, production, industrial and quality engineers
- Operations managers, plant leaders and department heads
- Continuous improvement, Lean, TPM, OEE and 5S coordinators
- Anyone responsible for improving process performance on the floor

At a Glance

DATE	29 May–2 June 2026
TIME	9:00 AM - 5:00 PM
VENUE	AC HOTEL by MARRIOTT, PUCHONG
FORMAT	Public cohort, hands-on workshop
COHORT	Maximum 15
FEE	Regular RM 6,500; discounts available
CLAIM	HRDC claimable

Why It Matters

Measurable returns

Typical Kaizen projects can eliminate RM 50,000-80,000 in annual waste through scrap, downtime, rework, inventory, and labour improvements.

Internal capability

Participants learn to lead improvements without depending on external consultants for every problem.

Sustained implementation

The program includes 90-day coaching so gains are reviewed, reinforced, and protected from regression.

OUTCOMES

What Participants Leave With

Knowledge

- Kaizen philosophy and competitive advantage
- The 8 Wastes framework
- QCD business impact model
- PDCA continuous improvement cycle
- Root cause analysis methods
- 7 Quality Control Tools
- Poka Yoke and Jidoka concepts
- A3 report structure and logic

Technical Skills

- Baseline assessment and data collection
- Systematic 5 Why and Fishbone analysis
- Apply 7QC tools to process data
- Design countermeasures and controls
- Facilitate 5S audits and assessments
- Document standard work procedures
- Create professional A3 reports
- Build KPI dashboards and review routines

Leadership Mindset

- See waste as a process problem to solve
- Go to the actual workplace for facts
- Use data to guide decisions
- Coach teams through PDCA
- Manage resistance with empathy
- Build frontline ownership
- Protect gains through daily management
- Develop future internal champions

Business Benefits

- Stronger internal ownership of improvement initiatives.
- Clearer problem selection based on QCD impact, not opinions.
- Better communication of improvement logic through A3 reporting.
- Higher chance that improvements sustain after implementation.

PROGRAM OUTLINE

5-Day Curriculum

Day 1 Foundation of Kaizen	Morning: 9:00 AM - 1:00 PM - Program overview and participant introductions - Kaizen philosophy and historical context - Role of a Kaizen Champion - QCD framework and profitability link - PDCA cycle as the engine of improvement	Afternoon: 2:00 PM - 5:00 PM - Reactive vs. proactive improvement mindset - Champion competencies framework - Operational excellence case study - PDCA exercise on operational challenges - Personal goal setting and commitment
Day 2 Baseline and Problem Identification	Morning: 9:00 AM - 1:00 PM - The 8 Wastes: overproduction, waiting, transport, processing, inventory, motion, defects, talent - Baseline metrics and KPIs - Current-state assessment methodology	Afternoon: 2:00 PM - 5:00 PM - Waste identification workshop - 5S framework: Sort, Set, Shine, Standardize, Sustain - Data collection planning: metric, owner, timeline
Day 3 Root Cause Analysis and Solutions	Morning: 9:00 AM - 1:00 PM - 5 Why analysis method - Fishbone diagram construction - 7 Quality Control Tools overview	Afternoon: 2:00 PM - 5:00 PM - Data analysis workshop using baseline data - Countermeasure development - Implementation plan framework: owner, timing, resource, metric
Day 4 Implementation and Leadership	Morning: 9:00 AM - 1:00 PM - A3 report development: background, analysis, solutions, plan, results - Poka Yoke mistake-proofing - Jidoka: build in quality and stop abnormalities	Afternoon: 2:00 PM - 5:00 PM - Visual management systems - Standard work documentation - Leading change: communicate, involve, train, recognize - Pilot and rollout strategy
Day 5 Sustainability and Culture	Morning: 9:00 AM - 1:00 PM - Sustainability strategy: audits, visual metrics, accountability, recognition - Preventing regression - Managing resistance with empathy	Afternoon: 2:00 PM - 5:00 PM - KPI tracking and dashboards - Business impact calculation: savings, ROI, payback - Capstone A3 presentations and peer feedback - 90-day action plan review

Program Includes

Tools Handbook

A3 templates, Fishbone diagrams, check sheets, Pareto charts, 5S assessments, standard work forms, and visual management templates.

A3 Report Guidance

Template, worked example, peer review, and facilitation support so each participant leaves with a ready-to-present improvement plan.

Implementation Roadmap

A 90-day execution plan with milestones, ownership, KPI targets, and follow-up rhythm.

Coaching Support

Six bi-weekly online sessions over three months, plus email and phone consultation support.

REGISTRATION

Investment and Next Steps

Early Bird Register by 4 May 2026	RM 6,250 per participant
Standard Rate Regular program fee	RM 6,500 per participant
Group Discount 2 or more participants	RM 6,200 per participant
Group + Early Bird 2+ participants by 4 May 2026	RM 6,000 per participant
