PROGRAM OVERVIEW

Program Title	Program Objectives	Date	Venue	Time
As-Is Process Validation and Challenge Workshop	• To validate and challenge the current as-is processes by engaging participants in structured walkthroughs to surface bottlenecks, inefficiencies, unclear accountabilities, and non-value-added activities across end-to-end workflows. • To build a shared understanding of process performance and issues across departments • To strengthen internal capability in process analysis by guiding participants in the practical use of SIPOC and ICOR frameworks, and AI-assisted tools to support consistent and structured analysis.	29 th January – 31 st January 2026	101 Resort, Kampung Janda Baik, Pahang	29 th Jan (Day 1) 2.00pm – 10.00pm 30 th Jan (Day 2) 9.00am – 10.00pm 31 st Jan (Day 3) 9.00am – 2.00pm <i>*Detailed agenda please refer to program agenda</i>

PROGRAM COORDINATION

General Remarks

- **Punctuality** is essential to ensure the smooth running of the program.
- Participants are advised to **arrive at least five (15) minutes before the scheduled** start of each session.
- All participants are **required to dress appropriately** in accordance with the agenda set for the program.
- Participants are **expected to give their full attention throughout the program**, as the outcomes of this program will contribute to personal development as well as improvements for the centre and the organisation.
- In the **event of an emergency** requiring a participant to leave the scheduled activity, please **inform the on-duty officer for that day**.
- **Mobile phones and electronic devices must be set to silent mode** to avoid disruption during the program.
- Participants are **encouraged to actively participate** in discussions, group activities, and question-and-answer sessions to fully benefit from the program inputs.

PROGRAM COORDINATION (cont'd)

Do's and Don'ts

Do's	Don'ts
• Dress neatly and appropriately in accordance with the program agenda. • Give full attention to the speaker or facilitator at all times. • Make full use of the sessions by asking questions and sharing views at appropriate times. • Use the time effectively, including interacting and building stronger rapport with fellow participants.	• Arriving late or leaving the program without valid or reasonable justification. • Using mobile phones for personal purposes during the sessions. • Entering areas or spaces designated for the opposite gender. • Failing to obtain sufficient rest, resulting in reduced focus and participation during the program.

FACILITATOR PROFILE

✉ tajul.asni@gmail.com

En. Tajul Asni Bin Ahamad

Principal Consultant, Technology & Artificial Intelligence

Master in Health & Information Analytics, International Medical University (2021)

Ts. Tajul Asni Ahamad is a seasoned technology and business driver, technology evangelist, and strategic thinker with over 23 years of comprehensive experience in the technology sector. He has established himself as a leading authority in digital transformation, artificial intelligence, and corporate innovation, having worked with several multinational companies including SAP, Oracle, SAS, and IBM.

As a Professional Technologist (MBOT) and Digital Transformation Consultant, Ts. Tajul serves as a Global Industry Advisor at Ventureblick, a prominent healthtech and medtech super incubator based in Singapore. His expertise extends across multiple domains, making him uniquely positioned to guide organizations through complex technological transformations while ensuring responsible AI adoption and sustainable business growth.

FACILITATOR PROFILE

✉ mohdhusni@gmail.com

En. Mohd Husni Bin Abd Halim

Principal Consultant, Lean Manufacturing

BSc. Aerospace Engineering, University of Arizona (2003)

Husni is a seasoned Mechanical Engineer with over 16 years of professional experience spanning the oil and gas industry, high-voltage power cable manufacturing, agribusiness leadership, and global continuous improvement projects. He has worked extensively with multinational organisations across Europe, Asia, and the Middle East, demonstrating strong technical leadership and cross-cultural project management capabilities.

His core expertise lies in Lean Manufacturing, Operational Excellence, and Continuous Improvement, with hands-on proficiency in OEE optimisation, Value Stream Mapping (VSM), Root Cause Analysis (RCA), 5S, PDCA, Kaizen, and Just-In-Time (JIT) methodologies. He has led numerous productivity and cost-reduction initiatives that delivered measurable financial savings across manufacturing plants worldwide.

In the oil and gas sector, he served as a Senior Umbilical Engineer, leading tender technical evaluations, subsea umbilical design, FEA verification, and compliance with international standards such as DNV, ISO, and NORSOK. He also brings strong experience in SAP PLM, engineering design tools, and ISO 9001 quality systems.

FACILITATOR PROFILE

jasmiza@jasmizasolutions.com.my

Pn. Jasmiza Yantee Jamalluddin

Chief Executive Officer Jasmiza Solutions Sdn Bhd

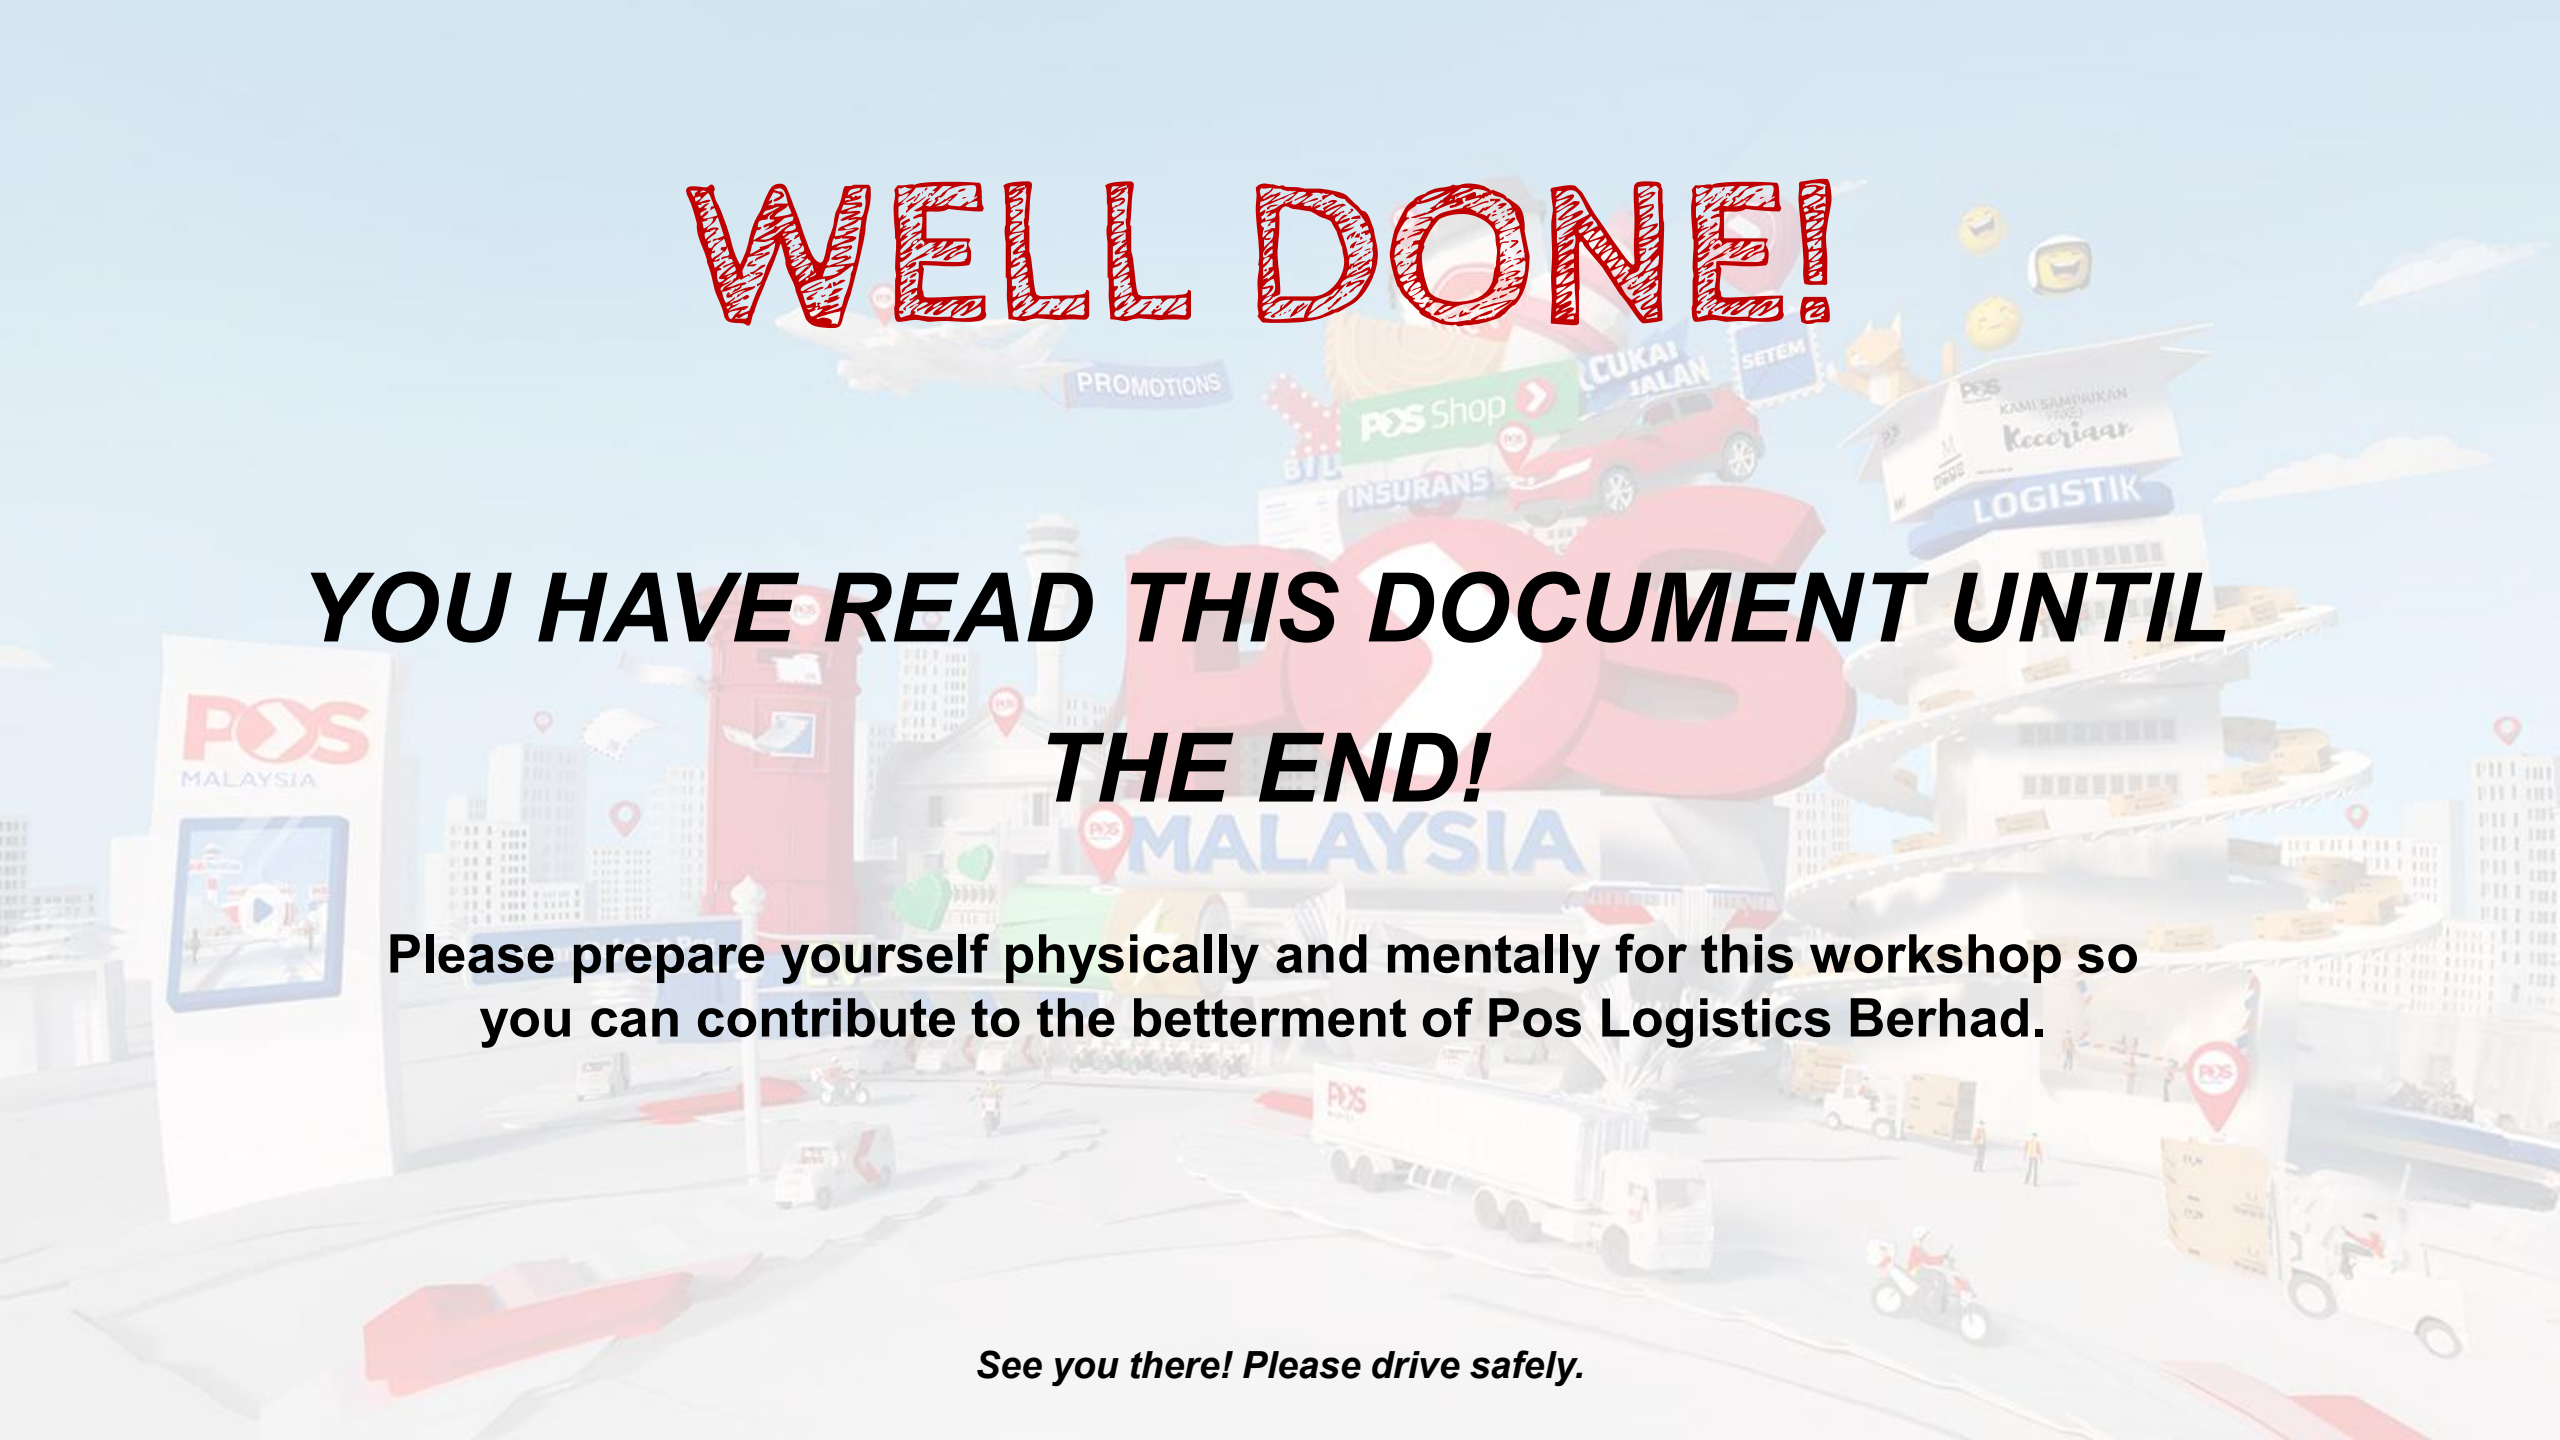

M Sc. Engineering Business Management, UTM/University of Warwick (2005)

Currently, Jasmiza is the lead adviser for several high-impact interventions in human capital development at various companies and organizations. She strongly believes that her vast expertise and experience provide what companies and organizations across a multitude of industries need to stay competitive and to even become market leaders.

Human capital development programs which comprises Knowledge Management, Capability Building and Organizational Psychology-Mindset Change, among others, are the “soft” key success factors for all leading organizations. Jasmiza leads, facilitates, manages, and coaches others in their efforts towards achieving their goals and realizing their vision.

Her specific mastery of and advanced dexterity in any human capital development related areas are in fact a form of guarantee for the application of sound methodology and effectiveness of strategies. Apart from designing systems, she has also led the establishment of a management system by integrating international standards and best practices into local particularities, tailored according to an organization’s needs, and aligned to its vision and missions.

To date, she has delivered more than 160 sessions of training and consultation on Manpower Optimization since 2013 to GLCs, MNCs and SMEs.

WELL DONE!
